Stefan Roman

Curriculum Vitae

3709 Berri,
Montréal, QC, CA H2L 4G7
438-351-3200
stefanroman@live.com

DevOps Engineer and backend developer with over two years of experience in CI/CD, automation, and software infrastructure design. Background in HVAC control systems, providing a strong understanding of the integration between software and physical equipment.

HVAC Controls Technician – ECL Mécanique 2024-2025

Reference : Keven Tremblay, Directeur/chargé de projet Automatisation.
Email : keven.tremblay@eclmecanique.com, Phone : 514-717-9384

- Programming and commissioning of KMC control systems.
- Troubleshooting and correction of faults on BACnet/IP and MS/TP networks, ensuring ventilation system stability.
- Creation of graphical interfaces for ventilation system visualization.

DevOps – Edilex 2023-2024

Reference : Étienne Gauthier, gérant solutions web.
Email : egauthier@edilex.com, Phone: 514-867-5645

- Implementation of two-factor authentication to meet current client requirements and support acquisition of new clients through tenders.
- Implementation and documentation of new development methodologies in a virtualized environment.
- Implementation of a request proxy system enabling a transition to a microservices architecture.
- Setup of CI/CD pipelines and automated deployments.

DevOps Internships 1 & 2 – Edilex 2022-2023

Reference : Étienne Gauthier, gérant solutions web.
Email : egauthier@edilex.com, Phone : 514-867-5645

- Training and onboarding of the team to a container-based development environment, accelerating development and bug discovery.
- Implementation and documentation of new development methodologies in a virtualized environment.
- Migration of Windows Server environments to virtualized infrastructures, reducing server load and costs.
- Documentation of emergency procedures for cloud outages and critical configurations required for proper application operation.

Video Game Development Instructor – StudioXP 2021-2022

Reference : Olivia Lagacé, coordinatrice.
Email : olivia.lagace@studioxp.ca, Phone : 514-297-6997

- Teaching fundamental concepts of logic and computer science, as well as the basics of the Unity game engine.
- Coordinating an engaging learning environment for young students in both in-person and online classes.

COMPÉTENCES

Object-oriented programming
Web development
Video game development
Databases
Virtualization (Azure, Docker, Proxmox, VMware)
Agile
Scrum
Embedded systems

ÉTUDES

Bachelor's Degree in Computer Science

2021-2024

Université de Montréal

Diploma of College Studies (DCS) in Computer Science and Mathematics

2019-2021

Collège Régional Champlain, Saint-Lambert

LANGUES

English, French, Romanian
